Subject: RE: Information Request Extension of Time Request
Attachments: MBTA-308 letter.pdf

Hi Lynne,

This extension request refers to the 308 deadline for the MBTA Commuter Rail Maintenance Facility (NPDES permit MA0003590) you and I briefly discussed in early March (the scanned 308 letter is attached for reference). The facility discharges industrial stormwater through a single outfall to a small unnamed tributary of the Charles River and the facility's drainage infrastructure may be impacted by infiltration of contaminated groundwater. The 308 was sent to collect more specific information about the drainage infrastructure and the impact of groundwater prior to issuing the draft permit.

With regards to this e-mail, I don't believe you and Art need to respond. George Harding, as the assigned enforcement officer for this facility, has the discretion to grant an extension. I'll make sure to close the loop on this.

Please let me know if you have any questions or comments,

Undine Kipka

Subject: FW: Information Request Extension of Time Request

Hi Undine,

Can you please let Art and I know a little more about this and if we need to respond? Thanks.

Lynne

Subject: Information Request Extension of Time Request

Ken, Lynne, and Undine,

I apologize for the timing of this email and request. As I told you on the phone, and in the voice mail I left, I need to request a time extension to respond to your Information Request, dated March 2, 2017. According to the request, the MBTA's response is due tomorrow June 10, 2017. Unfortunately the majority of the information in the response was provided to the MBTA by our Operator, Keolis, yesterday afternoon. The MBTA needs additional time to review and confirm the information that Keolis has provided. I would like to request an extension until June 23rd. Thank you for all

of your time and work on this NPDES Permit Renewal. Please let me know at your earliest convenience if this extension is acceptable to the EPA.

Thank you,
Janis
